---

### **Full Stack Web Developer**

Full Stack Web Development course at University of Utah. I am seeking to apply my skills in a fun and efficient environment to create user friendly applications. I maintain a strong attention for detail and believe in lifelong learning with a goal to improve my growing skill set daily.

My objectives are to find a career that will allow me to utilize my skills as a Web Developer and challenge me in that pursuit. Additionally, I am eager to learn new techniques and technologies.

---

### **Technical Skills**

Some of the technologies I have experience with include:

**Frontend:** JavaScript, React, Node.js, HTML5/CSS3

**Backend:** Node.js, Express, MongoDB, MySQL, Firebase

**Visualization:** Bootstrap

**Developer Tools:** GitHub, npm, Bash, Heroku

---

### **Registered Nurse**

I have maintained an active RN License as a frontline healthcare provider:

COVID-19 ICU, SICU, MICU, CCU, Med/Surg, Clinical Documentation Specialist

---

### **Previous Work Experience**

- Internship - Watson Labs Pharmaceuticals in the IT Systems department
- Internship - Novel as liaison between Hughes satellite and Novel developers delivering software update broadcasts
- Tech phone support member for the Microsoft Windows user setup platform
- Tech phone support for end user purchasers of computers and peripheral devices

### **Education**

- Full Stack Coding Bootcamp – University of Utah/Trilogy
- Bachelor of Science in Nursing - Western Governors University
- Associate of Science Degree - Nursing, Salt Lake Community College, UT

### **Military Service**

United States Air Force
