Full Stack Web Developer

Full Stack Web Developer providing services allowing clients to become more productive in their day-to-day activities. Keen on app development and a commitment to detail and time schedules are strongly held values that have developed during my career. Enjoy applying my coding experience in individual and team projects.

Technical Skills

Languages: MERN stack, HTML/CSS, JavaScript, PHP-Laravel

Visualization: Bootstrap, tailwindcss

Database: MySQL, MongoDB, Firebase

Other: GitHub, Heroku, GitBash, Microsoft Office Suite

Projects

Weather Station – <https://claughter.github.io/weather-station/> **2019**
<https://github.com/CLaughter/weather-station>

CRUD Frontend Weather App

- textual information and graphical tiles for enhanced user experience of weather information per user identified location requiring user input of email address and password for login.
- Tools used: HTML5, CSS3, JavaScript, Node.JS, Firebase, openweathermap.org, googlemaps and canvas APIs

Eat Da Burger – <https://agile-badlands-97906.herokuapp.com/> **2019**
<https://github.com/CLaughter/burger>

Heroku Deployed Sandwich Ordering App

Full-stack web app that identifies and classifies food allergens

- Individual project utilizing ORM file structure and persistence data storage allowing user to select, order and delete sandwiches of choice.
- Tools used: HTML5, CSS3, JavaScript, jQuery, Node.JS, MVC File Structure, Express, Handlebars, ORM, MySQL

Gift Together - <https://stark-gorge-52811.herokuapp.com/> **2020**
<https://github.com/jwbeuchert/project3/tree/chris2>

Full-stack React-Based Gift Wish List App

- Group project requiring login authentication and authorization. User can populate and edit personal gift list and share with Friends list. Friends can select from user list to purchase item and user is unable to view this transaction. All parties can chat via communication function.
- Tools used: React, Express, MongoDB, mongoose, Node.JS, Firebase, OAuth, Auth0

Christopher L Laughter, Web Developer, BSN, RN

Employment

Since 2007 I have been a Registered Nurse at the U.S. Department of Veterans Affairs, Intermountain Healthcare, and HCA/Timpanogos Hospital. I continue to maintain an active RN License and as a frontline healthcare provider, I have enjoyed a career in helping people improve on their continuum of health mostly in the ICU setting.

I have also been employed in the transportation industry for numerous years as I pursued my educational goals.

After working in the Automotive Service industry, I was a Tech Support member for Microsoft Window setup platform at Convergys.

Education

2020 – Full Stack Coding Bootcamp – University of Utah/Trilogy

2013 - Bachelor of Science in Nursing - Western Governors University

2006 - Associate of Science Degree - Nursing, Salt Lake Community College, UT

Internships

Watson Labs Pharmaceuticals – Information Technology Department

Novell – Liaison between Novell and Hughes engineers to broadcast new software to field engineers via the Hughes Satellite System

Military Service

1978 - 1982 United States Air Force
