Full Stack Web Developer

I am keen to find a way that integrates my skills as an RN at the bedside with the ever-changing technological aspect of the job. This would allow me to bridge my passion and skill set in a broader way while helping my peers and working toward improved patient outcome.

Technical Skills

Languages: HTML/CSS, JavaScript
Visualization: Bootstrap
Database: Have worked with MySQL, MongoDB, Firebase
Other: GitHub, Heroku, Microsoft Office Suite

Registered Nurse

I have maintained an active RN License as a frontline healthcare provider:
Direct patient care, SICU, MICU, CCU, Med/Surg, Clinical Documentation Specialist

---
