Full Stack Web Developer

Full Stack Web Developer providing services allowing clients to become more productive in their day-to-day activities. Keen on app development and a commitment to detail and time schedules are strongly held values that have developed during my career. Enjoy applying my coding experience in individual and team projects.

Technical Skills

Languages: MERN stack, HTML/CSS, JavaScript, PHP-Laravel
Visualization: Bootstrap, tailwindcss
Database: MySQL, MongoDB, Firebase
Other: GitHub, Heroku, GitBash, Microsoft Office Suite

Projects

Weather Station – https://claughter.github.io/weather-station/
https://github.com/CLaughter/weather-station
CRUD Frontend Weather App
- textual information and graphical tiles for enhanced user experience of weather information per user identified location requiring user input of email address and password for login.
- Tools used: HTML5, CSS3, JavaScript, Node.JS, Firebase, openweahtermap.org, googlemaps and canvas APIs

Eat Da Burger – https://agile-badlands-97906.herokuapp.com/
https://github.com/CLaughter/burger
Heroku Deployed Sandwich Ordering App
Full-stack web app that identifies and classifies food allergens
- Individual project utilizing ORM file structure and persistence data storage allowing user to select, order and delete sandwiches of choice.
- Tools used: HTML5, CSS3, JavaScript, jQuery, Node.JS, MVC File Structure, Express, Handlebars, ORM, MySQL

Gift Together - https://stark-gorge-52811.herokuapp.com/
https://github.com/jwbeuchert/project3/tree/chris2
Full-stack React-Based Gift Wish List App
- Group project requiring login authentication and authorization. User can populate and edit personal gift list and share with Friends list. Friends can select from user list to purchase item and user is unable to view this transaction. All parties can chat via communication function.
- Tools used: React, Express, MongoDB, mongoose, Node.JS, Firebase, OAuth, Auth0

Christopher L Laughter, Web Developer, BSN, RN

Employment - Place of Work

I have been a Registered Nurse at:
U.S. Department of Veterans Affairs-MICU
Intermountain Healthcare-Clinical Documentations Specialist
HCA/Timpanogos Hospital-CCU/SICU.
I continue to maintain an active RN License and as a frontline healthcare provider, I have enjoyed a career in helping people improve on their continuum of health.

Previous Work Experience

After working in the Automotive Service industry, I was a Tech Support member for Microsoft Window setup platform at Convergys. I have also been employed in the transportation industry for several years as I pursued my educational goals.

Education

Full Stack Coding Bootcamp – University of Utah/Trilogy
Bachelor of Science in Nursing - Western Governors University
Associate of Science Degree - Nursing, Salt Lake Community College, UT

Internships

Watson Labs Pharmaceuticals – Information Technology Department
Novell – Liaison between Novell and Hughes engineers to broadcast new software to field engineers via the Hughes Satellite System

Military Service

United States Air Force
